

# Fitting Report for HY50

**Description:** HyCool 50, Potassium formate  
**Source:** Technical Information. Hydro Chemicals, 2000.

**Temperature:** -50.0 °C to 20.0 °C

**Composition:** pure fluid

**Density:** coefficients to polynomial (2, 1)

**Spec. Heat:** coefficients to polynomial (2, 1)

**Th. Cond.:** coefficients to polynomial (2, 1)

**Viscosity:** equation to exponential (3,)

**Psat:** no information

**Tfreeze:** no information
