

Fitting Report for DEB

Description: Diethylbenzene mixture - Dowtherm J
Source: Åke Melinder. Properties of Secondary Working Fluids for Indirect System...

Temperature: -80.0 °C to 100.0 °C
Composition: pure fluid
Density: coefficients to polynomial (2, 1)
Spec. Heat: coefficients to polynomial (2, 1)
Th. Cond.: coefficients to polynomial (2, 1)
Viscosity: coefficients to expolynomial (3, 1)
Psat: no information
Tfreeze: no information

Legend: — function bounds
